

## Corporate Profile

### Affiliated Central, Inc.

**A**ffiliated Central is a leading provider of monitoring services for the alarm professional. Since 1977, Affiliated Central has been working closely with alarm dealers to help tailor their security offerings to best suit commercial and residential subscribers. Our services include:

**Security Monitoring:** Our security monitoring is backed by our UL Listed, CSAA Five Diamond monitoring center.

**PERS:** Affiliated Central can help you get started with the fantastic earnings potential of the PERS marketplace. Our new PERS package is the lowest priced PERS package ever — \$69 complete equipment package price, low per month PERS monitoring fee and free shipping.

**Fire Monitoring:** Affiliated Central is UL Listed and NFPA-compliant for monitoring commercial fire protection systems including fire alarm systems, sprinkler systems, and suppression systems. Affiliated is one of a select few monitoring centers approved by the Fire Department of New York City (FDNY).

**Radio/GSM Monitoring:** Wireless monitoring lets you offer greater protection to your subscribers and unlock new revenue opportunities. Affiliated Central supports all of the major GSM, GPRS, SMS and long range wireless radio systems in the industry.

**Internet Monitoring:** Internet monitoring is no longer the future; it is the present. Millions of businesses and homeowners have already moved their phone service from the legacy copper telephone network to VoIP over their broadband connections. Affiliated Central receives all major Internet formats to support this growing need.

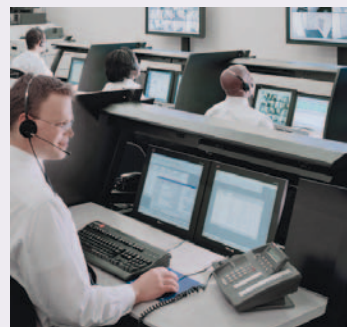

**Video Monitoring:** Affiliated Central is proud to integrate its services with OzVision, the leader in remote video technology and services. OzVision can transmit video over dial-up phone lines, broadband and cellular connections.

**Web & Mobile Access:** With remote access solutions, you can let your subscribers take advantage of their constant connectivity to control their security system no matter where they are. With our SeeMyAlarm.com service, they can view and manage their alarm system with any browser. For even more control, we work with third-party remote monitoring services including Alarm.com and Honeywell Total Connect.

**Two-Way Voice:** An easy-to-install two-way voice monitoring system provides a great way for your subscribers to communicate with Affiliated Central's monitoring associates. When an alarm is triggered, our trained associates can immediately speak with the subscriber; there's no need for the subscriber to get to a home phone.

Affiliated Central is trusted by thousands of security, fire and PERS dealers across the United States. Since our founding in 1977, we have worked with our partners to create custom alarm monitoring solutions that meet the specific needs of their subscribers. Affiliated has secured hundreds of thousands of businesses and homes throughout its history.

Affiliated Central is a monitoring service that gives your subscribers the same level of service that you provide to them. We understand and will help you deploy the latest technologies. Affiliated Central has an experienced, award-winning management team that is uniquely positioned to combine the technology you need with the service you want to help you grow your business.
