

Corporate Profile

MOXA[®]

Moxa, Inc.

Moxa: Your Trusted Partner in Automation

Founded in 1987, Moxa is now one of the leading manufacturers of industrial networking, computing, and automation solutions. Moxa provides thousands of hardware and software products and draws upon 25 years of accumulated expertise. Moxa's products reflect our constant zeal for improvement, keen eye for innovation, and respect for proven solutions and expertise. We harness these qualities to create solutions that deliver a competitive edge for our customers and partners in adapting to fast-changing network and market environments. Moxa delivers network-centric automation solutions that integrate automation and IT systems into a single network platform that simplifies management, reduces costs, and achieves greater reliability and efficiency.

Moxa offers complete industrial networking, computing and automation solutions for numerous industrial applications. Moxa's key focus is on industrial IP surveillance and security, Smart Grid solutions, transportation and railway automation solutions. In addition to these markets, Moxa applications can also be found in these industries: oil & gas; power & utilities; maritime; factory automation; process automation; medical; ITS; and remote monitoring.

Moxa is notably the only vendor that can provide comprehensive solutions in Industrial Communication — including serial connectivity, Ethernet, video-over-IP, WiFi and cellular, industrial I/O and embedded computing from a single source or partner.

Moxa offers quick, flexible, and comprehensive R&D service to meet our customers' specific expectations and exact requirements with a talented design team experienced in networking technology and solution development. Moxa has close collaboration with our customers to drive advancements and faster time-to-market product delivery. These partnerships keep Moxa in touch with emerging technologies and ensure that new developments and successes are shared with all of Moxa's partners.

We care about our environment. Moxa is dedicated to helping create and maintain a safe and clean environment, but our efforts are not limited to just the product. We have also taken great care to ensure that the product box, all types of packing material, plastic box handles, ink, and all other material used to process and ship our products, meet the RoHS guidelines.

Ruggedized IP Surveillance Solutions

Superior operational reliability and system integration flexibility

- Wide operating temperature for harsh environments
- High MTBF for operational reliability
- Modbus / TCP support for easy integration with SCADA systems
- DynaStream innovative frame rate control for network efficiency

Moxa provides complete IP surveillance solutions that thrive in the harshest industrial settings. Featuring rugged design and seamless integration with SCADA, Moxa IP surveillance solutions help you easily build an all-around IP surveillance system that includes everything from field devices to industrial infrastructure. Moxa's IP surveillance solutions include:

- Video servers featuring 1 to 4 channels and H.264 support
- IP cameras with IP66 and day-and-night vandal-proof industrial-grade design
- Industrial Ethernet switches which provide PoE functions and Gigabit speed, and innovative network redundant technology
- IP video surveillance software supporting up to 32 channels with a built-in OPC server
- Industrial network video recorder supporting up to 8 video stream channels and H.264 video recording
