

Corporate Profile

Visonic®

For a secure way of life

Visonic Group

Visonic Group is an international developer and manufacturer of high-quality electronic security systems and components. We are dedicated to enhancing people's way of life by increasing their sense of security. Our easy-to-use and innovative Home Security Systems and components and Personal Emergency Response systems are vital parts of everyday family life for people of every age.

Visonic sells through distributors, security firms, telecom companies, utility service providers, and care-giving entities around the world. The Group's marketing strategy consists of focusing at the moment on wireless products for the residential and light-commercial markets. The residential market includes products and services which take care of the safety and security of the entire family, including home control and healthcare.

From its earliest days, Visonic has pushed the boundaries of innovation to develop new technologies and products that solve real challenges in security. PowerG® is Visonic's newest patent-pending, revolutionary wireless technology for intrusion alarm systems. With PowerG-enabled intrusion alarm systems, security professionals and central stations can: Provide wireless alarm systems with strength and reliability close to wired systems; Expand their business to include large premises and new applications; Save money and time with fast and easy installations and support their environment with a green, energy-saving solution.

Also, Visonic manufactures all its products in-house, at a 107,600 square foot state-of-the-art production facility located in Kiryat Gat, Israel. The in-house production capabilities are unique in our industry, and enable to ensure uncompromising quality control throughout the manufacturing process while also enabling the utmost flexibility to adjust products and production schedules according to demand.
